Description

The compact Big Shot Foldaway machine features a 6 inch wide cutting and embossing surface with handle that neatly folds away.

It's perfect for creating on the go and freeing up space. It features built-in storage compartments to store wafer-thin dies and keep your favorites close by.

The machine uses the same cutting pads as the original Big Shot machine.

Not recommended for the Chrome Precision Base Plate because the Foldaway has more pressure.

Perfect for card making, scrapbooking, paper crafting and more.

The package includes one Big Shot Foldaway machine, one platform, one thin die adapter, one pair of standard cutting pads and one instruction booklet.

Imported.
